Pink Elephant Products is partnering with TerraCycle and other commercial recycling partners to help our customers and local businesses get closer to Zero Waste AND support non-profits at the same time! You can bring us certain items that most municipalities do not recycle, such as juice bags and baby food pouches. We will collect and get these items to our partners for complete recycling.

We are especially interested in the items listed in bold pink print - these items earn points which are redeemed for donations to our non-profit partners that focus on poverty, homelessness, and neighborhood revitalization in the City of Detroit.

Items can be dropped off during business hours at our retail store. Customers can also drop off items at our Downtown Detroit office or our production facility in Midtown. **PLEASE CONTACT US TO LET US KNOW YOU'RE MAKING A DROP OFF.**

Contact us about getting a bin set up at your school, business, church, or community organization! We will pick up your bin when full.

Please help us keep this program affordable and sustainable by NOT bringing us items that are not on our list. We encourage you to contact us if you have questions about what is accepted. Unfortunately, not all plastic is recyclable, and not all brands have committed to making sure that there is a way to recycle their products' packaging. Unless the brand is SPECIFICALLY mentioned, we do not accept flexible stand-up plastic pouches, which are a very popular form of consumer product packaging. Please note that we do not take ALL brands of pet food bags, we do not take ALL Amazon shipping envelopes (the manila envelopes lined with bubble wrap are not accepted), and we do not accept items that can go in your curbside bin. Dirty or wet items are not accepted and will be thrown away - all items, including plastic bags, must be clean and dry.
